4.2.4 Description of Community Based Teaching Learning Activities

Community-based learning (CBL) is a teaching strategy that combines student learning and real-world practice. Community-based learning can be found at all levels of education. It's important to engage students early so that they can develop relationships that enhance their overall learning experiences, it keeps them motivated when they can see a role for themselves in the greater social context. Because community-based learning can be done at any level, strategies are made by the institution to incorporate it into the curriculum. The students are exposed to treating dental patients in various satellite centres with minimum resources and maximum exposure to the real world.

The interns are posted on a rotatory basis wherein they are exposed to all the satellite centres and treat patients at the centre itself. They also educate and motivate the grassroots level workers regarding oral health related behaviour thus inculcating the principle of community participation.

Days of Oral Health Importance are also celebrated like World Oral Health Day, No Tobacco Day, National Toothbrushing Day etc to motivate the community regarding proper maintenance of oral health

महोदय,
उपरोक्त विषयाच्या अनुषंगाने कळविण्यांत येते की, या रुग्णालयात शासकीय दंत महाविद्यालय व रुग्णालया मार्फत दंत सेटलाईट ओपीडी कार्यान्वित होती. कोविड-१९ या जागतीक महामारीमुळे वृहन्मुंबई महानगरपालिका यांनी हे रुग्णालय अधिग्रहित केल्यामुळे सदरहू दंत सेटलाईट ओपीडी बंद करण्यात आली होती.
