71	Department of Public Health Dentistry observed World Cancer Day on 4th February 2025 , was commemorated by Providing outreach services to the rural population of Falegaon, Murbad. As part of the initiative, individuals were screened for oral diseases, with a special focus on early detection and prevention of oral cancer. Primary dental care procedures were delivered through a mobile dental van to ensure accessible and immediate treatment. Participants with a history of tobacco use were identified and provided dedicated counseling sessions to promote tobacco cessation and reduce the risk of cancer and other oral health complications.
72	Maharashtra Oral Health Day 5th February 2025 was observed through a community outreach activity organized at Police Prashikshan Kendra, Kalina for young and budding police personnel. The program aimed at promoting oral health awareness and preventive care among the participants. Dental screening was conducted to identify oral diseases at an early stage, and educational sessions were held to improve oral health literacy and encourage healthy oral hygiene practices. Special attention was given to tobacco users, who were screened for precancerous lesions and conditions, facilitating early detection and counseling for cessation and further management
73	Successfully implemented the 100-Day Action Plan under the Directorate of Medical Education and Research (DMER), Government of Maharashtra, aligned with the Oral Health Mission (Swachh Mukh Abhiyaan) , by conducting 175 oral health screening and awareness camps reaching approximately 27,724 beneficiaries, with a focus on improving access to dental care, reducing the oral cancer burden, and strengthening public-private partnerships.
74	On the occasion of World Oral Health Day, observed on 20th March 2025 , the Department of Public Health Dentistry conducted various oral health activities aimed at promoting awareness and providing preventive care among different sections of the community. Municipal school children were screened for oral diseases and educated on maintaining proper oral hygiene practices. Oral health examinations and education sessions were also conducted for children at Pragati Blind School, Badlapur. A tribal population at Savroli, Badlapur, was screened for oral diseases and provided oral hygiene education. An oral health check-up and treatment camp was organized at Krushnarao Vrudhashram, Badlapur,

	to cater to the elderly population. Additionally, first-year BDS students underwent oral health screening at the Evening Dental Clinic of Government Dental College and Hospital, Mumbai.
