College Magazine 'Reflections'

The college magazine is a source of inspiration for generations, ever since its inception in 1972. 'Reflections', the college magazine—a beautiful compilation of memories brought to life by the Magazine Chairperson Dr. Tabita Joy (2024-2025) after a long gap of almost two decades.

'Reflections' was revived and rejuvenated, being relaunched in a digital format to connect with the current generation in the digital age. This new edition highlighted the key events of 2024, capturing unforgettable moments in images, allowing us to revisit them at any time, creating a lasting and tangible connection to our shared experiences. It also showcased the literary talent beautifully penned down as poems and write up by the students and faculty members.
